Automation for Interior Window Coverings

Creating a convenient, comfortable living environment

The environment we create within our homes and offices contributes significantly to health and well-being in our daily lives. Somfy motor and control systems enhance our living environments and well-being by adding convenience, safety, thermal comfort and environmental efficiency.

By choosing Somfy automated blinds and curtains you maximise the functionality of your product and gain a much desired flexibility that is simply not possible with a manual system.

Pleated blinds

Roller blinds

Roman blinds

Venetian blinds

Curtains

Projection screens

Warranty

Somfy provides a 5 year warranty on all products. Somfy's extensive quality testing procedures ensure all motors, controls and sensors conform to national and international safety and electrical standards.

Benefits of Somfy Automated Blinds and Curtains

Convenience

With the simple touch of a button you can move your blind or curtain to whatever position you like. Forget pulling cords or twisting rods to manually open or close your blinds – with a Somfy system it's comfortable, easy and convenient.

Energy Efficiency

Reduce your energy usage by controlling the amount of heat and light entering your home. Keep your home cool in summer by reflecting the harsh heat of the sun but allow the sun in during winter to enjoy natural warmth and light.

Longer Lifespan

Manual operation can damage blinds and curtains through excessive force or improper use. Somfy's smooth and controlled operation of blinds and curtains ensures both maximum functionality and a longer lifespan of the product.

Safety

Loose cords and chains are a danger to young children. With Somfy automated blinds and curtains the cords and chains are completely removed, providing peace of mind for you and a safer environment for your children.

Quiet and Discreet

Somfy's world leading motors are fully concealed inside the tube of the blind. With the simple press of the remote control you will enjoy the ambience and impress your guests with a quiet and sophisticated automated blind system.

The convenient choice

As a result of world class research and product development, Somfy offer a range of motor and control solutions for all types of internal blinds and curtains. Ask your Somfy retailer which of the following motor solutions will suit your specific project needs.

Wirefree RTS battery powered solution

Offering the benefits of remote control operation but without the need for electrical connection. Somfy's battery powered motors are the ideal solution for hard to reach blinds, when electrical connection is difficult or simply as your introduction to motorisation.

Wired technology

The preferred motor option when :

- you are looking for a simple wall switch operation or
- you are connecting to a Home or Building Automation System

Radio Technology Somfy (RTS)

Somfy's patented control protocol for the operation of radio motors. With a range of 200 metres in open space or up to 20 metres through two reinforced concrete walls, Somfy RTS motors and controls are the ideal solution for automation within your home.

Sonesse – Ultra quiet motors

Somfy offers world leading performance with the range of Sonesse ultra quiet motors. Sonesse motors use patented technology to dampen noise and vibration to deliver a new standard in acoustic control. The Sonesse range is available in both wired technology and RTS radio technology motors. Ask your Somfy retailer about the Somfy Sonesse motor range to enhance your Somfy experience.

Somfy contributes to improving well-being and harmony in all living spaces.

Glydea – Curtain motorisation

Somfy's Glydea curtain motor system is quiet, discreet, flexible and robust to deliver the highest quality in automated curtains for any location. Designed with an adaptable operating system to suit the environment, you can choose to control your curtains via dry-contact, radio RTS technology or RS485 modules. Plus the "Touch Motion" feature will open or close the curtain simply by pulling on the fabric. Ask your Somfy retailer which Glydea option can enhance your living environment.

Somfy... A Sense for Motion

As a world leader in automation systems, Somfy offer a range of control solutions to suit your needs. Somfy's unique and stylish range of remote controls provides users with the ultimate in convenience – all at the touch of a button. In conjunction with the broad range of Somfy sensors, you have the ability to create energy efficient, convenient environments to improve the well-being of occupants in all living spaces.

Remote Controls

Somfy remote controls come in a broad range of colours and styles to suit any décor. Ask your Somfy retailer for the complete range.

Silver remote

Patio remote

Lounge remote

Mod/Var remote

Revolutionary scroll wheel – specific for precise adjustment of venetian blind slats. Perfect for managing the level of heat and light entering a room.

In addition to acting as the stop function when using your remote, the "my" button on Somfy controls allows easy programming of your preferred blind / curtain position.

16 Channel remote

6 Channel remote with timer

Wall mounted remote

Smoove RTS wall mounted control*

Smoove RTS wall mounted control (Open/Close)*

*Choice of modules and frames: modules available in 3 finishes, frames available in 7 finishes

Sensors & Timers Thermal Comfort

Automated operation of blinds and curtains via Somfy sensors and timers provides an optimum light and heat exchange between indoors and outdoors – without the need for occupant intervention. This ensures the temperature and visual comfort levels inside the home remain pleasant in all seasons, delivering a consistent living environment for maximum occupant comfort and well-being.

Thermosunis indoor wirefree

Small and discreet, this sensor provides automatic operation of blinds or curtains based on preset light and room temperature levels.

Telis 6 Chronis

Allows programming of up to 6 timed events per day, plus the benefits of a 6 channel Somfy remote.

Home Automation Systems

Somfy motor and control systems are compatible with all Home and Building Automation Systems. Ask your Somfy retailer for the best solution to suit your needs.

Touch Panel

Centrally control all your Somfy automated products with this elegant touch panel display.
